ABOUT THE JOURNAL

This journal is the in-house journal of the Believers Church Medical College Hospital and is meant as a platform for publications of the humane kind and also those that are arising from faculty/students capacity building in conjunction with the in-house research capacity-building workshop series and the research mentoring program of the institution that includes all heads of department who will help identify research questions, faculty the formation of research teams and give constructive feedback to improve scholarly writing.

The Believers Med. J. Website has guidelines and resources on scholarly approaches to research, program evaluation and quality improvement audits, as well as resources on the peer review process — expected to build the capacity of faculty to improve the quality of research and its publication.

The journal is aiming to get indexed and standard processes are being followed along with transparency in the review process documentation needed for indexing decision-making by indexing agencies.
